

KENORA

Originally built for a client of Wally Yachts, Kenora is a development from Wally B, sharing similar hull lines, while she has very different deck and interior plans. This 107ft (32m) sloop is a round-the-world cruiser conceived for an experienced Yachtsman.

Designed by Luca Bentra, Kenora benefits from having all the long distance equipment typical of a bluewater cruiser, but still providing the performance, the ease of handling, and the great comfort shared by all the Yachts of her class.

Both on and below deck, Kenora is spacious and practical, reflecting the rational approach to the project ensuring that the owner's requests to have a Yacht he can live on are met. The owner's brief also directed the design and the furnishing of the interiors that truly combine the feeling of a home with the nautical requirements. Our joinery craftsmen created the interior at the yard using a blend of finest quality quarter-sawn blonde teak in conjunction with carbon panels.

Technical specification

Builder	Pendennis
Naval architect	Luca Brenta & Co
